

Cabinet-Hanging & Wall-Mount Trash Bin

Keep Your Floors Clear. Keep Everyday Cleanup Easy.

A trash can shouldn't take up valuable floor space. The N.E. Ware™ bin hangs securely over most cabinet doors or mounts directly to the wall — so cleanup is quicker, your space stays organized, and trash is always within easy reach.

WHY YOU'LL LOVE IT

Save More Space — Without Giving Up Convenience

Traditional trash cans sit on the floor and get in the way. Hang N.E. Ware™ over a cabinet door or mount it on the wall to free up valuable floor space while keeping your trash within arm's reach. It's one of those simple upgrades you'll wonder how you ever lived without.

● Right where you work

Scrape, toss, and keep moving — the wide opening sits at counter height for quick disposal.

● Made for small spaces

Great for smaller kitchens, apartments, condos, and RVs — anywhere every inch counts.

● Easier cleanup

With nothing on the floor, sweeping and mopping around the area takes seconds, not minutes.

TWO SIMPLE SETUPS

Install It Your Way

No matter how your space is laid out, there's an easy setup that fits. Both options take just minutes — no handyman required.

OPTION 01

Hang It Over a Cabinet Door

No tools. No drilling. Simply hook it over most standard cabinet doors and start using it in seconds. Perfect for renters or anyone who wants a damage-free setup.

OPTION 02

Mount It to the Wall

Prefer a permanent location? Use the included adhesive mounting plate for a clean, secure installation on smooth surfaces — no studs to find, no holes to patch.

Choose the setup that works best for your space — and change your mind anytime.

BEYOND THE KITCHEN

At Home in Every Room

Kitchens, bathrooms, laundry rooms, home offices, RVs — anywhere space is limited, N.E. Ware™ fits right in and keeps clutter off the floor.
